

Exela Technologies, Inc. Reports First Quarter 2020 Results

Jun 30, 2020

Files Form 10-Q for the Three Months Ended March 31, 2020

Conference Call to Discuss Results Scheduled for June 30, 2020 at 5 PM ET

First Quarter 2020 Highlights:

- Revenue of \$365.5 million, a decline of 9.6% on a reported basis and 9.2%(1) on a constant currency basis from Q1 2019
- Operating loss of \$2.2 million
- EBITDA(2) of \$54.6 million
- Adjusted EBITDA(3) of \$44.4 million on a reported basis; \$44.5 million on a constant currency basis

Irving, TX- June 30, 2020 – Exela Technologies, Inc. (“Exela” or the “Company”) (NASDAQ: XELA), a location-agnostic global business process automation (“BPA”) leader across numerous industries, announced today that it has filed its Quarterly Report on Form 10-Q for the three months ended March 31, 2020.

“We are pleased to report our first quarter 2020 results, which include revenue above the high-end of our previously announced range. While we expect that the COVID-19 pandemic will impact our 2020 performance, Exela is well positioned to navigate this uncertain environment and emerge a stronger company than before. We have a resilient business model supported by the mission-critical solutions we provide our customers, and our near-shore and off-shore global delivery platform which maintained over 96% of Service Level Agreements to our customers even during COVID-19. As virtually every company in the world is being forced to re-examine their business models and cost structures, Exela is uniquely positioned to help customers address these new challenges through our BPA solutions. These solutions deliver increased operational efficiency and cost reduction through digital transformation and automation. Looking ahead, we remain focused on our initiatives to grow our core lines of business, improve our profit margin and cash flow performance, and increase our liquidity position,” said Ronald Cogburn, Chief Executive Officer of Exela.

First Quarter 2020 Financial Highlights

- **Revenue:** Revenue was \$365.5 million, a decline of 9.6% from \$404.4 million in the first quarter of 2019. Revenue for the Information and Transaction Processing Solutions segment was \$284.1 million, a decline of 12.6% year-over-year attributable primarily to exiting contracts and statements of work in late 2019 from certain customers with

revenue that we believe was unpredictable, non-recurring and were not a strategic fit to Company's long-term success or unlikely to achieve the Company's long-term target margins. Healthcare Solutions revenue was \$64.0 million, an increase of 4.4% year-over-year, driven by increased volumes with existing customers. Legal and Loss Prevention Services revenue was \$17.3 million, a decline of approximately \$0.5 million, or 2.8% from the first quarter of 2019.

Revenue excluding the previously announced low margin contract exit ("LMCE") and pass through revenues from postage and postage handling with either zero or nominal margins ("pass through revenue") (4) was \$295.7 million in the first quarter of 2020, representing a decrease of 9.6% from \$327.1 million in the first quarter of 2019.

83% of first quarter 2020 revenue was earned in the Americas, 15% was in EMEA and 2% was in rest of world.

- **Operating income / (loss):** Operating loss for the first quarter of 2020 was \$2.2 million, compared with operating income of \$16.5 million in the first quarter of 2019. The year-over-year decrease in operating income was primarily attributable to lower revenue and gross profit compared with the first quarter of 2019.
- **Net Loss:** Net Loss for the first quarter of 2020 was \$12.7 million, compared with a net loss of \$32.2 million in the first quarter of 2019. The year-over-year improvement in net loss was primarily due to a \$35.0 million non-cash, one-time gain recognized in the first quarter of 2020 related to the sale of the Company's Tax Benefit Group ("TBG") business.
- **Adjusted EBITDA:** Adjusted EBITDA for the first quarter of 2020 was \$44.4 million, compared to \$76.4 million in the first quarter of 2019. Adjusted EBITDA margin for the first quarter of 2020 was 12.1% compared to Adjusted EBITDA margin of 18.9% in the first quarter of 2019. The decrease in first quarter 2020 Adjusted EBITDA was mainly driven by lower revenue and gross profit compared with the first quarter of 2019, partially offset by continued realization of savings flow-through. Adjusted EBITDA margin, based on revenue excluding LMCE and pass through revenue, was 15.0% in the first quarter of 2020, compared with 23.3% in the first quarter of 2019.
- **Capital Expenditures:** Capital expenditures for the first quarter of 2020 were 1.3% of revenue compared to 1.8% of revenue in the first quarter of 2019.
- **Common Stock:** As of June 26, 2020, there were 147,511,430 total shares of common stock outstanding and an additional 3,923,385 shares of common stock reserved for issuance for our outstanding preferred shares on an as-converted basis.
- Total employees as of March 31, 2020 were 22,058 as compared to 22,766 as of December 31, 2019.
- **Balance Sheet:** At March 31, 2020, Exela's total net debt was \$1.518 billion.

Debt Reduction and Liquidity Improvement

On November 12, 2019, Exela announced that its Board of Directors adopted a debt reduction and liquidity improvement initiative ("Initiative"), with the goal of increasing the

Company's liquidity to approximately \$125.0 to \$150.0 million, and repaying debt with a target debt reduction of approximately \$150.0 to \$200.0 million. In accordance with this Initiative, Exela announced two transactions in the first quarter of 2020.

- On January 15, 2020, Exela announced that the Company entered into a 5-year, \$160.0 million accounts receivable securitization facility to improve liquidity. The facility is for an initial five-year term, may be extended in accordance with its terms, and is incremental to Exela's existing \$100.0 million revolving facility maturing in July 2022.
- On March 17, 2020, Exela announced the sale of its TBG business for \$40.0 million, or approximately 1.93x 2019 revenue. Net of closing costs and adjustments, this transaction resulted in proceeds of \$38.2 million. For full year 2019, TBG generated total revenue of \$20.7 million. The Company believes it is on schedule for additional divestitures with expected proceeds in the range of \$110.0 million to \$160.0 million in the aggregate.

Second Quarter and Full Year 2020 Outlook

- For the second quarter of 2020, Exela currently expects revenue to be in the range of \$300.0 million to \$305.0 million. The Company's second quarter revenue outlook includes approximately \$35.0 million to \$40.0 million in negative impact from lower volumes primarily from certain Healthcare and Banking, Financial Services and Insurance clients as a result of the COVID-19 pandemic.
- The depth and duration of the economic impact from COVID-19 on Exela and its customers' businesses remains unknown. Given the uncertainties surrounding COVID-19 and its impacts on visibility, Exela has delayed providing financial guidance for full year 2020. However, we do expect the gross profit margins to increase post COVID-19 downdraft as volumes normalize.

(1) – Constant currency is a non-GAAP measure. A reconciliation of constant currency is attached to this release.

(2) – EBITDA is a non-GAAP measure. A reconciliation of EBITDA is attached to this release.

(3) – Adjusted EBITDA is a non-GAAP measure. A reconciliation of Adjusted EBITDA is attached to this release.

(4) – Pass through revenue is defined as postage and postage handling revenue with either zero or nominal margins. LMCE is defined as revenue from the low margin contract exit announced in the third quarter of 2018. A reconciliation of revenue net of pass through revenue and LMCE is attached to this release.

Earnings Conference Call and Audio Webcast

Exela will host a conference call to discuss its first quarter 2020 financial results at 5 p.m. ET on June 30, 2020. To access this call, dial 833-255-2831 or + 412-902-6724 (international).

A replay of this conference call will be available through July 7, 2020 at 877-344-7529 or + 412-317-0088 (international). The replay passcode is 10145235. A live webcast of this conference call will be available on the “Investors” page of the Company’s website (www.exelatech.com). A supplemental slide presentation that accompanies this call and webcast can be found on the investor relations website (<https://investors.exelatech.com/>) and will remain available after the call.

About Exela

Exela Technologies, Inc. is a business process automation leader, leveraging a global footprint and proprietary technology to provide digital transformation solutions enhancing quality, productivity, and end-user experience. With decades of expertise operating mission-critical processes, Exela serves a growing roster of more than 4,000 customers throughout 50 countries, including over 60% of the Fortune® 100. About Non-GAAP Financial Measures: This press release includes constant currency, EBITDA and Adjusted EBITDA, each of which is a financial measure that is not prepared in accordance with U.S. generally accepted accounting principles (“GAAP”). Exela believes that the presentation of these non-GAAP financial measures will provide useful information to investors in assessing our financial performance, results of operations and liquidity and allows investors to better understand the trends in our business and to better understand and compare our results. Exela’s board of directors and management use constant currency, EBITDA and Adjusted EBITDA to assess Exela’s financial performance, because it allows them to compare Exela’s operating performance on a consistent basis across periods by removing the effects of Exela’s capital structure (such as varying levels of debt and interest expense, as well as transaction costs resulting from the combination of Quinpario Acquisition Corp. 2, SourceHOV Holdings, Inc. and Novitex Holdings, Inc. on July 12, 2017 (the “Novitex Business Combination”) and capital markets-based activities). Adjusted EBITDA also seeks to remove the effects of integration and related costs to achieve the savings, any expected reduction in operating expenses due to the Novitex Business Combination, asset base (such as depreciation and amortization) and other similar non-routine items outside the control of our

management team. Optimization and restructuring expenses and merger adjustments are primarily related to the implementation of strategic actions and initiatives related to the Novitex Business Combination. All of these costs are variable and dependent upon the nature of the actions being implemented and can vary significantly driven by business needs. Accordingly, due to that significant variability, we exclude these charges since we do not believe they truly reflect our past, current or future operating performance. The constant currency presentation excludes the impact of fluctuations in foreign currency exchange rates. We calculate constant currency revenue and Adjusted EBITDA on a constant currency basis by converting our current-period local currency financial results using the exchange rates from the corresponding prior-period and compare these adjusted amounts to our corresponding prior period reported results. Exela does not consider these non-GAAP measures in isolation or as an alternative to liquidity or financial measures determined in accordance with GAAP. A limitation of these non-GAAP financial measures is that they exclude significant expenses and income that are required by GAAP to be recorded in Exela's financial statements. In addition, they are subject to inherent limitations as they reflect the exercise of judgments by management about which expenses and income are excluded or included in determining these non-GAAP financial measures and therefore the basis of presentation for these measures may not be comparable to similarly-titled measures used by other companies. These non-GAAP financial measures are not required to be uniformly applied, are not audited and should not be considered in isolation or as substitutes for results prepared in accordance with GAAP. Net loss is the GAAP measure most directly comparable to the non-GAAP measures presented here. For reconciliation of the comparable GAAP measures to these non-GAAP financial measures, see the schedules attached to this release.

Restatement: As described in additional detail in the Explanatory Note to the Company's Annual Report on Form 10-K filed with the SEC on June 9, 2020 (the "Annual Report"), the Company restated its audited consolidated financial statements in the for the years ended December 31, 2018 and 2017 and its unaudited quarterly results for the first three fiscal quarters in the fiscal year ended December 31, 2019 and each fiscal quarter in the fiscal year ended December 31, 2018 in the Annual Report. Previously filed annual reports on Form 10-K and quarterly reports on Form 10-Q for the periods affected by the restatement have not been amended. See Note 20, Unaudited Quarterly Financial Data, of the Notes to the consolidated financial statements in the Annual Report for the impact of these adjustments on each of the quarterly periods in fiscal 2018 and for the first three quarters of fiscal 2019. All amounts in this release affected by the restatement adjustments reflect such amounts as restated.

Forward-Looking Statements: Certain statements included in this press release are not historical facts but are forward-looking statements for purposes of the safe harbor provisions under The Private Securities Litigation Reform Act of 1995. Forward-looking statements generally are accompanied by words such as "may", "should", "would", "plan", "intend", "anticipate", "believe", "estimate", "predict", "potential", "seem", "seek", "continue", "future", "will", "expect", "outlook" or other similar words, phrases or expressions. These

forward-looking statements include statements regarding our industry, future events, estimated or anticipated future results and benefits, future opportunities for Exela, and other statements that are not historical facts. These statements are based on the current expectations of Exela management and are not predictions of actual performance. These statements are subject to a number of risks and uncertainties, including without limitation those discussed under the heading “Risk Factors” in the Annual Report. In addition, forward-looking statements provide Exela’s expectations, plans or forecasts of future events and views as of the date of this communication. Exela anticipates that subsequent events and developments will cause Exela’s assessments to change. These forward-looking statements should not be relied upon as representing Exela’s assessments as of any date subsequent to the date of this press release.
