

Exela Technologies Named a Leader in NelsonHall's Healthcare Payer Operational Transformation NEAT Vendor Evaluation 2023

Mai 25, 2023

IRVING, Texas, May 25, 2023 (GLOBE NEWSWIRE) -- Exela Technologies, Inc. ("Exela" or the "Company") (NASDAQ: XELA, XELAP), a global business process automation ("BPA") leader, announced the Company has been named a Leader in NelsonHall's Healthcare Payer Operational Transformation NEAT Vendor Evaluation for 2023 for the second year running. Exela was named a Leader for Overall Capability and Claims Management Suitability.

According to John Willmott, CEO, NelsonHall and author of the report, “Exela is uniquely positioned in healthcare payer claims transformation by providing a single clearinghouse, All Payers Paper Claims Gateway, that any payer or provider can use to manage their paper claims across their industry partners. Exela complements this claims transformation with digital payment transformation, migrating provider payments from physical checks. These services address two of the most costly and time-consuming elements of healthcare payer operations.”

Exela's PCH Global is the industry's first cloud-hosted end-to-end healthcare claims management platform, providing solutions in key areas such as payment integrity, complex claims processing, analytics and member and patient engagement.

"Mr. Willmott has eloquently articulated the essence of PCH Health's value proposition, which has resulted in a remarkable increase in our customer base, surpassing 70,000. Our current objective is to further expand our user count to reach 2 million," said Suresh Yannamani, CEO Exela Technologies BPA.

This report examines how U.S. healthcare payer BPS effectiveness management services are enabling clients to use technologies like RPA, AI/ML, and cloud-based solutions to deliver improvements in volume and process quality, while reducing operational costs. The vendors mentioned in this report are increasingly focused on intelligent automation to provide operational efficiencies along with providing comprehensive support to clients for care management, wellness offerings and member behavior interventions.
