

# Exela Technologies Announces Offer for its Senior Secured Notes

juin 09, 2023

IRVING, Texas, June 08, 2023 (GLOBE NEWSWIRE) -- Exela Technologies, Inc. ("Exela" or the "Company") (NASDAQ: XELA, XELPA) today announced that certain of its subsidiaries have commenced an offer to exchange any and all of their outstanding 11.500% First-Priority Senior Secured Notes due 2026 (the "Old Notes") issued by Exela Intermediate LLC (the "Issuer") and Exela Finance Inc. (together with the Issuer, the "Issuers") into new 11.500% First-Priority Senior Secured Notes due 2026 (the "New Notes") issued by the same Issuers.

This offer is being made upon the terms and conditions set forth in the Confidential Offering Memorandum and Consent Solicitation Statement (the "Offering Memorandum") dated June 8, 2023. The offer will expire at 11:59 p.m., New York City time, on July 7, 2023 (the "Expiration Time"), subject to being amended or extended. Tendered Old Notes may be validly withdrawn at any time prior to 5:00 p.m., New York City time, on June 22, 2023, but not thereafter.

For each \$1,000 principal amount of Old Notes validly tendered prior to 5:00 pm, New York City time, on June 22, 2023 (the "Early Tender Time"), holders will be eligible to receive \$800 principal amount of New Notes. Holders who tender Old Notes after the Early Tender Time will only be eligible to receive \$750 principal amount of New Notes per \$1,000 principal amount of Old Notes.

The New Notes will have a coupon of 11.500% and will mature on April 15, 2026, provided that if any of the Issuers' existing notes due in 2023 or term loans due in 2023 remain outstanding on July 12, 2023, then the New Notes will also mature on July 12, 2023.

The New Notes will be fully and unconditionally guaranteed by the same guarantors that guarantee the Old Notes (other than certain guarantors that have ceased to have operations or assets) and by certain affiliates of the Issuers. The New Notes and related guarantees will be secured by a first-priority secured interest in substantially all of the existing and future assets of the Issuers and the subsidiary guarantors, which is the same collateral currently securing the Old Notes, as well as the assets of and equity interests in certain affiliates of the Issuers (the "Collateral").

The consummation of the offer is conditioned upon, among other things, the valid tender, and not valid withdrawal, of at least 66.67% in aggregate principal amount of outstanding Old Notes (excluding Old Notes held by the Issuers or any of their respective affiliates) (the "Minimum Tender Condition"). The Minimum Tender Condition may not be waived by the Issuers. If at least 66.67% of the Old Notes are tendered, the provisions containing the

restrictive covenants and events of default for the Old Notes will be eliminated and the Collateral for the Old Notes will be released. Accordingly, upon closing and settlement of the offer, all New Notes will be structurally senior to the Old Notes with respect to the Collateral. Therefore, claims with respect to the Old Notes will be effectively subordinated to claims with respect to the New Notes and the Senior Facilities (as defined in the Offering Memorandum) to the extent of the value of the Collateral and, in the event of a bankruptcy, liquidation or insolvency, there would be fewer assets remaining from which the claims of the Old Notes could be satisfied.

Tendered Old Notes will not receive a cash payment for the accrued and unpaid interest in cash from the last applicable interest payment date to the settlement date. Instead, such accrued and unpaid interest will be carried over to the New Notes, which will accrue interest from January 15, 2023 (the last interest payment date for the Old Notes).

Holders may not tender their Old Notes pursuant to the Exchange Offer without delivering a consent with respect to such Old Notes tendered pursuant to the Consent Solicitation, and holders may not deliver their consents pursuant to the Consent Solicitation without tendering the related Old Notes pursuant to the Exchange Offer. No consideration will be paid for consents in the Consent Solicitation.

The offer is subject to customary closing conditions described in the Offering Memorandum, including, among other things, the Minimum Tender Condition.

Pursuant to a support agreement entered into with several eligible holders of Old Notes which, together with certain of their respective affiliated funds, hold approximately 54.1% of the outstanding principal amount of the Old Notes (excluding Old Notes held by the Issuers or any of their respective affiliates), such holders have agreed to tender all of their Old Notes in the offer. All Old Notes held by the Company and its Affiliates will be tendered in the offer.
