

Exela Technologies Announces Contract with Major US Healthcare Company

Oct 11, 2022

IRVING, Texas, October 11, 2022 -- Exela Technologies, Inc. (“Exela” or “the Company”) (NASDAQ: XELA, XELAP), today announced that it has contracted with a major healthcare company to implement [PCH Global](#). The first phase opportunity will expedite processing of excess claim inventory, leveraging the combination of Exela’s industry leading technology and expert personnel. The Exela solution will increase capacity preventing a backlog of inventory. The PCH Global platform will also enhance the experience for all participants including patient, payer and provider. Additional services are planned to continuously add value for all stakeholders over time. This contract falls under the Healthcare Solutions business which had over \$220 million in revenue over the trailing 12 months.

“We are finding that many healthcare insurance companies do not have the capacity to process the many claims running through the system due to personnel and system limitations. PCH Global continues to improve the healthcare ecosystem and we are proud that participants are realizing the benefits of the solution,” said Suresh Yannamani, Chief Executive Officer, Exela Technologies BPA.
